

LOCAL MARINE INSURANCE EXPERTS

AcadiaMarine™

Solar panels are a major part of reducing our carbon footprint. However, many insurance programs haven't kept up with the renewable energy industry. There are significant exposures that traditional Builders' Risk and Property insurance policies do not address. Acadia Insurance can provide targeted renewable energy insurance solutions for your customers, whether their work involves installing or operating solar panel equipment.

The Right Policy for Your Customers' Business

✓ **Acadia Targeted Builders' Risk Insurance for solar installation, including:**

- Hard cost, with transit and off-site storage
- Testing and equipment breakdown
- Delay in Completion with soft costs, additional construction expense and loss of income

✓ **Property Insurance for operational solar arrays, including:**

- Special form inland marine property coverage
- Equipment breakdown
- Pollutant cleanup & removal
- Newly acquired equipment
- Income coverages
- Ordinance or Law
- Debris removal
- Flood
- Earthquake
- Functional Replacement Costs
